

COLOURFUL EMOTIONS

A game to explore emotional intelligence.

This game can be used together with *The Colour Monster* by Anne Llenas, published by Templar Publishing. You can watch the story here: <https://youtu.be/lh0iu80u04Y>

HOW TO PLAY

- Four players or four groups can play the game.
- Each player/group chooses a monster to play. There are 4 monsters to choose from.
- The winner is the player or group that gets to the circle of emotions first.
- The players/groups roll the dice and the one with the highest score starts the game.
- The players/groups must move their monsters the number of spaces the dice shows.
- Once the players/groups land on a space, they click on that space and follow the directions on the screen. Only the orange spaces have no challenges to complete.
- The game ends when a player/group gets into the circle of emotions in the centre of the board. The player/group can only access the circle of emotions with the exact number of movements; otherwise, the player/group must go back the number of exceeding movements.

WHAT'S INCLUDED IN THE BOX
